

SureVestor's We Do It For You (WDIFY) Email Settings Instructions

STEP 1 - CREATE AN EMAIL ADDRESS FOR SUREVESTOR

Create the email `RiskMitigation@AtYourDomain.com` (ie. `RiskMitigation@624home.com`) and send the login details (Log in Page, Username, and Password) to `info@surevestor.com`. This will allow us to log-in and verify settings.

STEP 2 - DKIM SETTINGS

DKIM is a DNS-based email authentication mechanism that helps us more effectively send mail on your behalf by allowing receivers to verify that we have permission to send your email. To enable DKIM, create a TXT record for `mandrill._domainkey` with the following value:

```
v=DKIM1; k=rsa;  
p=MIGfMA0GCSqGSIb3DQEBAQUAA4GNADCBiQKBgQCrLHiExVd55zd/IQ/J/mRwSRMAo  
cV/hMB3jXwaHH36d9NaVynQFYV8NaWi69c1veUtRzGt7yAioXqLj7Z4TeEUoOLgrKsn8Ync  
kGs9i3B3tVFB+Ch/4mPhXWiNfNdynHWBcPcbJ8kJEQ2U8y78dHZj1YeRXXVvWob2OaKyn  
O8/IQIDAQAB;
```

Some DNS providers require that semicolons be escaped. If your provider requires escaping, use this value instead:

```
v=DKIM1\; k=rsa\  
p=MIGfMA0GCSqGSIb3DQEBAQUAA4GNADCBiQKBgQCrLHiExVd55zd/IQ/J/mRwSRMAo  
cV/hMB3jXwaHH36d9NaVynQFYV8NaWi69c1veUtRzGt7yAioXqLj7Z4TeEUoOLgrKsn8Ync  
kGs9i3B3tVFB+Ch/4mPhXWiNfNdynHWBcPcbJ8kJEQ2U8y78dHZj1YeRXXVvWob2OaKyn  
O8/IQIDAQAB\;
```

STEP 3 - SPF RECORD

SPF is another DNS-based email authentication mechanism. If you don't yet have an SPF record, you'll want to add one for your domain. At a minimum, the value should be the following if you're only sending mail through Mandrill for that domain:

```
v=spf1 include:spf.mandrillapp.com ?all
```

If you already have a TXT record with SPF information, you'll need to add Mandrill's servers to that record by adding **include:spf.mandrillapp.com** in the record (before the last operator, which is usually `?all`, `~all`, or `-all`).

Once these three steps are completed once, you'll never have to complete it again and we can activate our marketing machine to start marketing to your database on your behalf!
